ABOUT ME

3 years in development. 3rd-year university student. I am planning to continue studying and working in backend development. I am building solutions in Java and .NET - backend, REST API, database. Throughout my studies, I have developed various software solutions including websites, desktop applications, games. I got experience with databases, UML design, deployment, and Figma prototyping. My weaknesses are frontend and webdesign.

EDUCATION

ACADEMIC LYCEUM №5 | 2011-2020

Basic secondary education

CIST KNEU named after V. HETMAN | 2020-2024

Professional Junior Bachelor
